A Quick Look into PDF Expert Tools

Annotate to remember

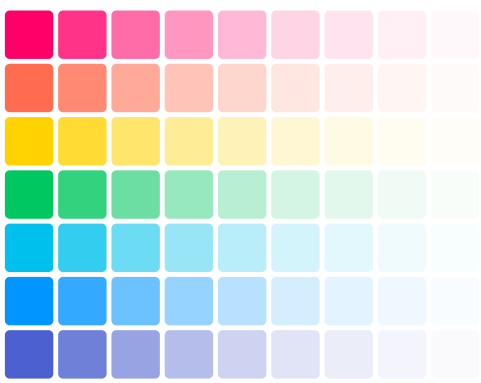

Annotating a text or marking pages with notes is an excellent, if not essential way to make the most out of reading. Annotations make it easy to find important information when you look back.

Click Annotate on the toolbar and select the tool that works best for you.

A Highlight with colors

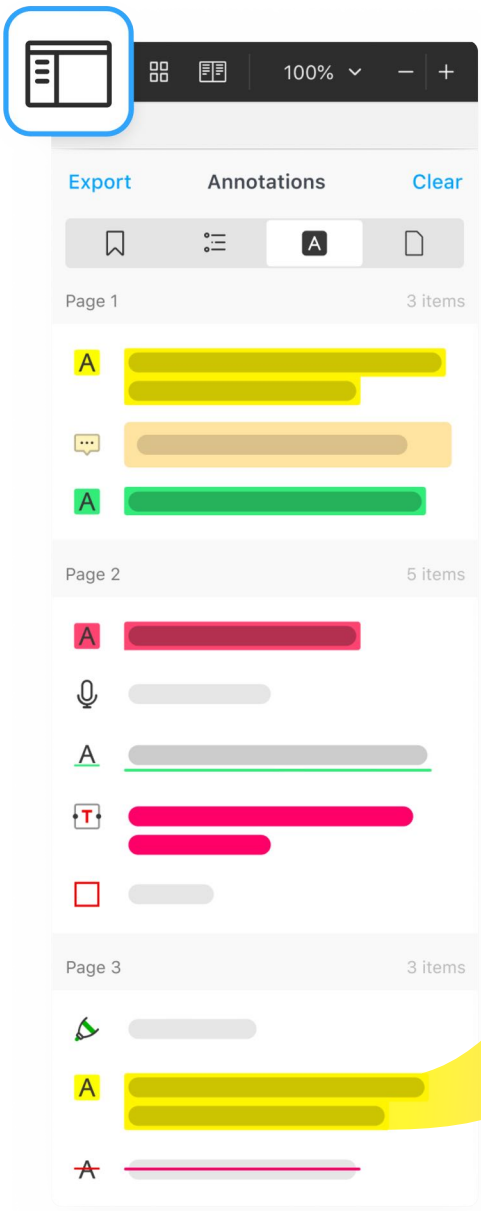

Use colors and drawing tools to emphasize different value of text information: highlight the main ideas with yellow, take green for additional details and red for agreements.

Add Text notes

Enrich your PDFs with noteworthy remarks and thoughts by typing in text comments in the margins of the page. They are searchable and you can easily find them later.

You can change **the font family, color and size.**

Get an overview

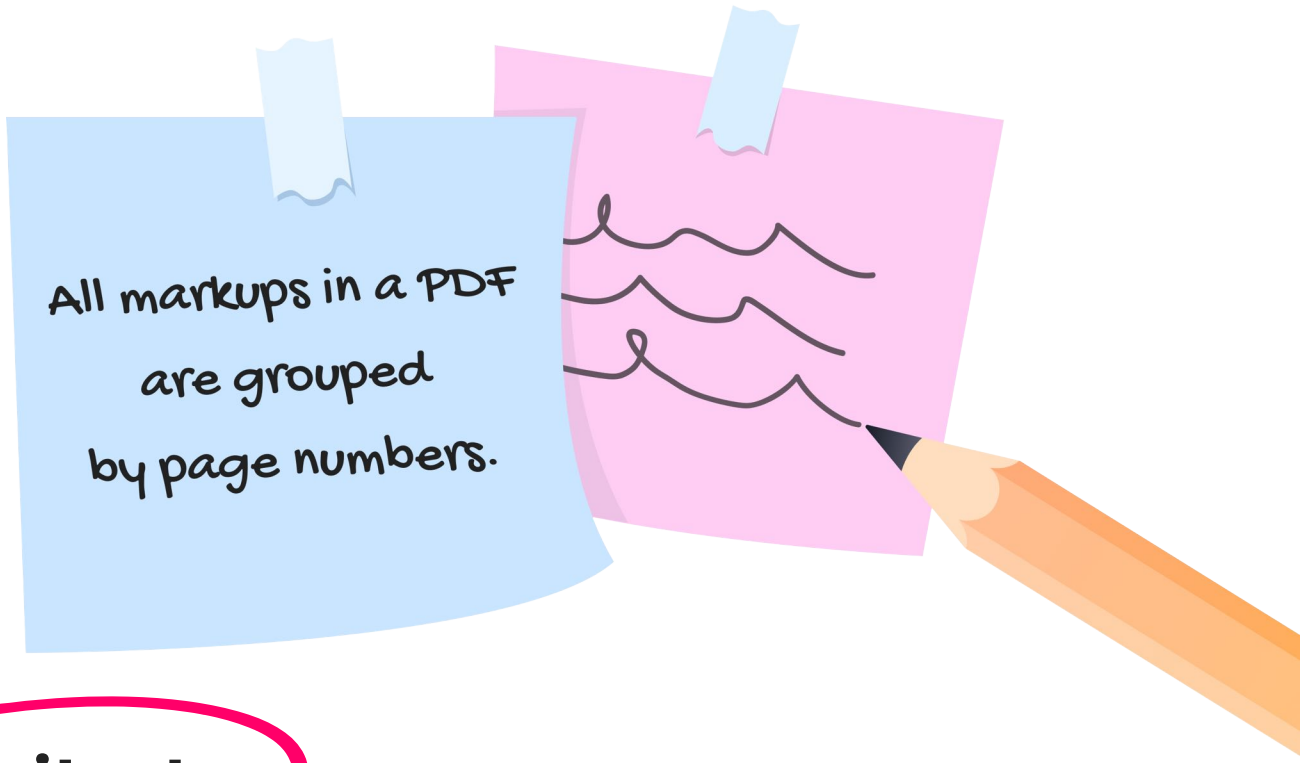

Quickly search through your annotations under the left panel in the Annotations tab and click the particular one to be redirected to the page where it is located.

Sort annotations by color to select those you need right now.

Export annotations

The summarized ideas can be extracted in a separate HTML, Text or Markdown file so that you can focus on the most valuable things.

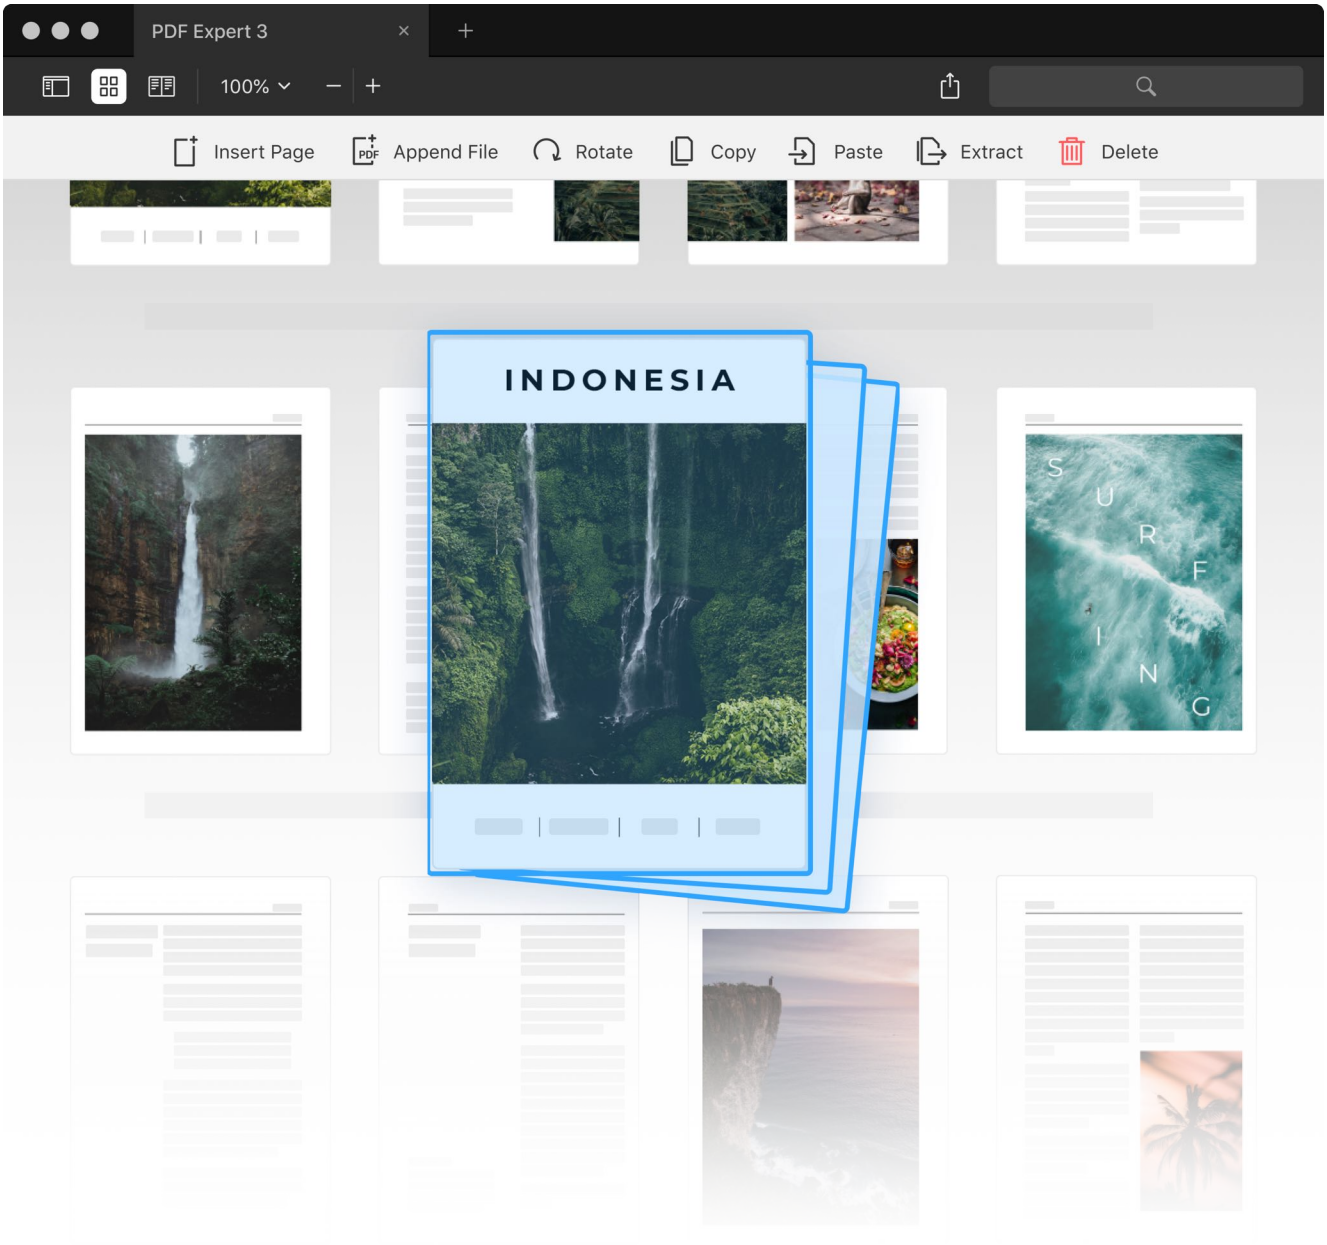

Give it a try

Take any tool you like, either A Highlight, Pen or Note,and try to mark up the text below:

> *All the world's a stage,*
> *And all the men and women merely players;*
> *They have their exits and their entrances;*
> *And one man in his time plays many parts,*
> *His acts being seven ages.*

Manage pages

Page Management in PDF Expert is intuitively simple and fast in your everyday workflow. Click  to insert, rearrange and extract pages.

To change the page order in the Thumbnail view, select the pages and move them to the needed place in the document.

There’s More to Explore!

Edit PDFs

Edit PDF text, images and links – all in the most effortless way.

Fill out PDF forms

Open a PDF and PDF Expert will detect and highlight fields to fill.

Recognize text with OCR

With OCR, you can convert any scan or photo into text, so you can highlight, copy, and search through it.

Protect sensitive data

Lock your files with a secure password, or redact sensitive information from the content.

Sign contracts

Use PDF Expert to sign contracts, documents, or capture customer signatures.
